- Portable Sump Pump**
- Hatchet**
- Cordless Power Tools**
- Chewing Gum**
- Easy To Recite Meditation Chant**
- Baby Bottle of Hot Sauce**

WE TAKE SAFETY SERIOUSLY.

Your boat is your best tool. Look around. What can you repurpose? A sail works great as a fothering pad (look it up). Fenders are great, bilge hatches, pots or pans. We saw a small cruise ship keep the ocean out as they hotfooted it to shore using Splash Zone, a big pot and some wedges to hold it all in place. The hot sauce is for you too. You do not want to eat bland food, in an emergency or otherwise. It'll drive you mad.
